• Summary

This group uses ResNet18 and ScatNet to predict seven disputed sketches.

• Strength

Visualization and explanation on both single figure sample and full scale are persuasive.

• Weakness

The feature visualization of PCA is not so intuitive.

• Clarity and quality of writing: 5

The idea of the whole project is well expressed and shown.

• Technical Quality: 5

Since the dataset is so small that it relies on finer operation.

• Overall rating: 5

• Confidence: 2
